Fair-Rite Products Corp.'s Declaration regarding The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65)

Fair-Rite uses one component in its Cable Core Snap-It Assembly product line which contains one chemical listed in the Safe Drinking Water and Toxic Enforcement Act of 1986, as updated in December 2021 that is known to potentially leach from the component. The component is a plastic case. Fair-Rite's Cable Core Snap-It Assembly product line has part numbers which begin with class code '04'.

Antimony Trioxide is used in the make-up of Fair-Rite's UL94 V-0 rated Polypropylene plastic case composition and is integral to its flame retardant properties and performance. Its CAS# and weight percentage are listed below.

Antimony Trioxide CAS# 1309-64-4 5 wt%

In addition, some of Fair-Rite's Cable Core Snap-It Assembly products are included its Engineering Kits. The following kit part numbers include Fair-Rite's Cable Core Snap-It Assembly products:

0199000005- Expanded Cable & Suppressor Kit
